

**Buraaq Mining Services Media release,
July 2026**

Buraaq Mining Services Completes Third Successful AARD 5.5 LHD Delivery

Johannesburg, South Africa – July 2026

Buraaq Mining Services is proud to announce the successful delivery of another **AARD 5.5 Load Haul Dumper (LHD)** to our valued client in **Burgersfort, Limpopo**, on **01 July 2026**.

This latest delivery demonstrates our continued commitment to supporting the mining industry with reliable equipment solutions and outstanding customer service. Every successful project reflects the dedication, teamwork, and professionalism of the Buraaq Mining Services team.

The AARD 5.5 LHD is engineered to perform in demanding underground conditions, providing clients with dependable loading capabilities that contribute to safer and more productive mining operations.

We extend our sincere appreciation to our client for

their ongoing partnership and confidence in our services. We look forward to continuing to deliver value and supporting future mining projects.

Reliable Equipment. Trusted Service. Proven Results.

"Your Total Solution, Cost Effective Mining Partner"
