September 2026**

## **Excellence In Motion: DS311 Bolter Delivery In The North West Province.**

**Johannesburg, SouthAfrica - September 2026**

On the **12 September 2026**, Buraaq Mining Services proudly completed the delivery of **DS311 High Profile Bolter** to a valued customer in the **North West Province**.

### **The DS311 Bolter: Built for Safer, Stronger Underground Support**

The DS311 Bolter is a robust high profile bolter machine designed to support in underground mining environments, keeping working areas stable and secure for the people who work in them. Its generous **roof coverage of 6 350 x 2 100 mm** allows operators to support a wide area from a single position, improving efficiency and reducing repositioning time. Depending on the options selected, the machine has a **total weight of 15 000 to 18 000 kg** giving the strength needed for demanding underground conditions.

### **Excellence You Can Trust**

As an **ISO 9001-accredited** mining solutions and equipment maintenance provider, Buraaq Mining Services holds itself to internationally recognised standards of quality, consistency and customer care. Every machine we deliver is backed by that standard and by team that understands the realities of the mining environment.

### **Our People and Our Commitment**

This successful delivery would not have been possible without the dedication, skill and hard work of our employees and we extend our sincere thanks to every team member who contributed to getting this machine delivered on time and to specification

The commitment reflects the values that define Buraaq Mining Services, which remains dedicated to providing an excellent service to all of our customers, from supplying quality equipment to keeping it running safely and productively. We look forward to supporting our customers operations for many years to come.

**Buraaq Mining Services**  
**Engineering Solutions. Mining the Future.**  
**Reliable Equipment. Trusted Services. Proven Results.**
