

Buraaq Mining Services Media release,
September 2026

Buraaq Mining Services Successfully Delivers ST1030 Underground Loader To Valued Client.

Johannesburg, SouthAfrica - September 2026

Buraaq Mining Services is proud to announce the successful delivery of the **ST1030 LHD High Profile Underground Loader** to a valued client operating in the **Steelpoort mining region of Limpopo**.

Completed on **23 September 2026**, the delivery represents another significant milestone for Buraaq Mining Services and reflects the company's commitment to supplying **reliable, practical and cost-effective equipment solutions** to the mining industry.

Built for Demanding Underground Applications

The ST1030 LHD High Profile Underground Loader is a 10-tonne loader designed to support production and mine-development activities. Its capabilities make it well suited to demanding underground environments, cuts production time in half in terms of clearing muckpile clearing, loading and material handling.

The machine incorporates features focused on maintaining productivity while supporting operator safety and comfort. These include **parking brake feature, ISO complaint FOPS and ROPS protection, operator door with interlock with electronic seatbelt**.

"Your Total Solution, Cost Effective Mining Partner"

Delivering More Than Equipment

For Buraaq Mining Services, every equipment delivery is an opportunity to demonstrate its ability to provide solutions aligned with the real operational requirements of its customers.

The successful delivery of the ST1030 showcases Buraaq's capability to supply **quality underground mining equipment backed by practical technical knowledge, responsive service and a commitment to customer requirements**. From equipment supply to technical support, Buraaq Mining Services continues to build its reputation through solutions that place **reliability, efficiency, safety and customer satisfaction** at the centre of its approach.

For Buraaq Mining Services, the successful delivery is therefore not simply about placing another machine at a mine site. **It is about helping our client strengthen their operational capability with equipment designed for the realities of underground mining.**

As a BBBEE Level 1 contributor, Buraaq Mining Services continues to strengthen its position as a trusted South African mining and engineering solutions provider. The company combines equipment supply with practical technical solutions and customer focused support to meet the operational demands of the mining sector.

Another Delivery. Another Partnership.

At Buraaq Mining Services, we understand that mining customers require more than equipment. They require **reliable solutions, responsive service and a partner who understands the importance of keeping operations moving.**

The delivery highlights Buraaq Mining Services capability to supply reliable underground mining equipment supported by practical technical solutions and on-going customer service. Buraaq continues to focus on providing cost-effective equipment solutions tailored to the operational requirements of the mining industry.

Recognising the Buraaq Team

A successful delivery is made possible through the **dedication, teamwork and commitment of the people behind every project.**

Buraaq Mining Services extends its sincere appreciation to all employees who contributed to the successful delivery of the ST1030. From the planning and coordination stages through to the preparation, technical support, logistics and final delivery, every contribution played an important role in bringing his milestone to completion.

The professionalism and commitment demonstrated by the Buraaq team continues to strengthen the company's ability to deliver on its promises and provide customers with dependable solutions.

With a focus on quality equipment, practical solutions, technical support and customer satisfaction, Buraaq Mining Services remains committed to delivering solutions that create value for its clients and contribute to the continued development of the mining sector.
